Exceptional Warranties

Why choose any less than the best quality products. At N&C, we are so confident in our quality that we offer exceptional warranties across our range.

Exclusive Collections

Did you know? We are one of the leading national tile distributors within the UK with an extensive portfolio of exclusive collections that you won't find anywhere else in the UK!

Tile Guarantee

Who else offers you a lifetime guarantee on your new wall & floor tile purchases? Simply fix your tiles using Nicobond, our trusted, British manufactured tiling brand to enable your lifetime guarantee**

Sample Service

Sometimes, the best way to experience the beauty of our tiles is in person. If you can't visit us in one of our showrooms, simply request a sample and we'll deliver it to your home or office!

Welcome

"We seek out what's on-trend so you can be confident in your choices"

Mark Cooper,
N&C Technical Tile Specialist

Welcome to your new tile collection catalogue where you will find an abundance of the latest in tile trends suited to any space and at any budget.

We engage in colour forecasting and anticipate future interior trends, ensuring that we meet your design aspirations that adhere to the tastes and direction of fashion. Our colour palette has been influenced by bringing together the insight and knowledge of leading colour specialists and collaborators within interiors.
Collections
Begin your design *Journey*

As an interior stylist, Andree Christou offers her top tips on how to begin your interior transformation journey.

Andree Christou, Interior Stylist

The transition between seasons bring to life new opportunities for the world of design. I have been styling homes for over 10 years now with a continual passion that I embrace with every passing year.

There is a little bit of interior stylist in us all and I believe that our homes should tell a story and reflect who we are. Inspiration for interiors can be sought everywhere, in particular amongst nature.

Inviting interiors delight all the senses, including the sense of touch. This multi-sensory experience is why tiled surfaces are so appealing. Available in huge range of gorgeous colours and designs they often feature beautifully textured finishes available in endless structures that just beg to be touched. Furthermore, tiles offer a true replication of the intricate detailing found in natural materials but without the high maintenance and cost associated.

" *Bring your interiors alive. Love your design and make it tell your story....* "

Interior Styling Tips

Plan your colour scheme

Creating a mood board needn't be complicated; simply pin together images that inspire you and relate to the look you want to create. Paint colours, fabric swatches and tile samples can help you develop the look you want to create and show how these elements will work together in the finished space.

A useful tip to help you create a cohesive colour scheme is to use the 70/20/10 ratio. 70% of your colour scheme should be the primary colour that you choose for your walls and floors, 20% is your secondary colour that will appear on items like furniture, curtains or tiles and 10% is the colour used on accessories such as cushions, artwork, lampshades etc.

Create a mood board of ideas as part of your planning

Change with the seasons

The changing of the seasons brings fresh ideas drawn from the unique beauty of the changing landscape, from the fresh colours of Spring to the warm hues of Autumn and right through to the deep shades of winter and the vibrant tones of summer. Opt for your perfect base colours then build the style of your room in layers, finishing with accessories. Simple changes such as new cushions or plant types from bold brights to gushing greens help to create the mood of the moment.

Considered design

Every beautiful room should have a focal point to draw the eye. Incorporate a feature wall to allow your focal point to room to shine embrace blank space and remove any clutter that distracts the eye and makes a space look smaller.

"

Embrace blank spaces and incorporate a feature wall or zonal area which can draw your attention within a room

"

Farmhouse to *Dream Home*

With an eye for interiors, Kate Gurney and her husband were able to see past the old, wrecked farmhouse that was to be their future home. Taking her followers on the transitional journey on instagram (@K.Home_Design), Kate shares her wonderful home transformation with us.

Tell us about your renovation journey?
We fell in love with our old farmhouse about seven years ago. It just had those good vibes and we could see the potential. However, it was a complete wreck and not in a liveable condition. We began work on it straight away so that we could move in.

What was your aim for the renovation?
When we eventually started the build, we wanted to make sure that the house kept a modern farmhouse feel yet was functional and worked for our growing family.

Kate could add a wood look into her bathroom due to porcelain material

What room is your most used, functional space?
The kitchen is the heart of our home. I wanted it to be a place which we could all use together as a family. The open plan kitchen / dining area and the large island was perfect for this. I can cook whilst the kids are doing their homework or playing.

This is the most used room in the house so we needed a hard-wearing floor that was not only attractive, but also worked well with the children. The Home range from N&C are large format tiles that works perfectly within the space, especially as the space is large. I chose a light colour to create a light airy feel. Bringing the tiles down into the dining area creates continuity and a seamless finish through the house which I love. There is no disconnection from room to room.

> *We wanted to create a spa feel in the bathroom with neutral tones & materials and was able to achieve this with our beautiful wall and floor tiles*

Eclipse White Opal Polished marble effect wall tiles and Wood Space porcelain floor tile helped create a spa like feel.

Tell us about the other beautiful rooms…

When designing the master bedroom and en-suite I wanted it to feel like we had stepped into a hotel room, an escapism from the craziness of family life! The en-suite has a spa feel created using neutral earthy tones and natural materials. The faux wall we created for the shower area was covered in textured stone tiles also from N&C which creates a beautiful statement wall. I have used natural coloured, marble effect tiles on the walls with wood effect porcelain tiles on the floor. To finish off the look I have accessorised with a wood vanity, white ceramic bathroom products and chrome fixtures. Using soft mood lighting, candles and botanics to promote the calming spa feel space.

Home, white floor tiles helped to create a seamless feel from room to room

Split face slate, multi decor wall tile

focus

Tropic

Organic
Back to Nature

Our global emphasis on all things nature and sustainability sees a rise in our connection with natural shades of greens and blues paired with wood tones.

Our yearning for social interaction outdoors has helped bring the influence of nature back indoors.

Botanical

Langham

Bohemian

Balance Ceppo Di Gris

Serenity

We are seeing a shift towards muted, softer colours to reflect our need for self-comfort, well-being, and a place to find peace. The more serene palette reflects our yearning for warmer, cosy space brought about through earth inspired tones.

We're seeking comfort and yearning for warmer tones and a greater sense of wellbeing

Stone Age

Exeter

Carpet

Play

Maximalist

Maximalism is a stance against minimalism. It takes on a more-is-more ideology with contrasting colours, excessive use of design and a focus on personalisation rather than perfection. The key to this trend is individualism.

Granada Hexagon

Ottoman

Need for Touch

Tactile surfaces and layers of texture continue to be a trend that sees worn finishes, split stones, wood grains and detailed marble. Techniques that offer increased depth, dimension and interest is the focus of this trend.

Ivy Hexagon

Lume

Chalk

Clifton

Broken Plan Living

Our love of open spaces has seen a shift towards the creation of defined spaces. Never before have we had to utilise our existing environment for multi-purpose living. Here we see a need for creating zonal areas fit for purpose, whether for play, work or living.

Extending spaces to the outdoors is getaway from enclosed spaces. We have seen a huge increase in the need for Alfresco living.

Open plan living has been adapted to redefine spaces

Majorca

Scandi Nord

Inspired by the design movement in the Nordic regions, the simplistic design approach uses neutral and light colours, green foliage and a restricted palette combined with wood and a focus on functional living.

*A simplistic design focusing on a minimalist palette*

Small Format Collection

Small format tiles offer a wide range of design possibilities. From handmade artisan effects to the more exotic, unique looks can be achieved from the wide collection and diverse installation approaches.

Lume Green

Lume Blue
Lume

Inspired by artisan fired ceramics, Lume is a collection that embraces the trend for handcrafted quality that forgives imperfections represented by the structured surface and colour of the tile.

Outdoor Porcelain Paving

Why choose Outdoor Porcelain Paving?

The N&C porcelain paving collection features Alfresco, a series of co-ordinating 10mm indoor and 20mm outdoor porcelain tiles to seamlessly connect indoor and outdoor spaces, as well as our outdoor only 20mm porcelain.

Our Outdoor porcelain paving collection features an abundance of inspiration and styles that allow you to add value to your property. Whatever the size or shape of your outside space, be that a garden, driveway, roof terrace or balcony, we can help you transform it into a usable, luxurious looking space that will stay looking beautiful throughout its lifetime.

the new outdoor living concept...

- High strength, high performance
- Colours will not fade over time
- Frost-resistant protected from adverse weather
- Resistant to moss and staining
- Enhanced resistance to slipping with a PTV of 36+
- Quick to install*
- Acid, oil and chemical resistant
- Highly resistant to scratches, ideal for high traffic areas
- Rectified edges for accuracy, precision & smaller joints
- Available in a number of colours, styles and sizes
- Resistant to drastic temperature changes
- Low maintenance as no treatments required/will not rot

- Ideal for patios, driveways, terraces, balconies etc
- Interior/exterior coordination
- Attractive on-trend designs
- Environmentally friendly
- Removable for inspection and to hide wires/pipework*
- Easy to clean, even with high-pressure systems
- Resistant to fire
- Easy to install
- Matching internal tiles
- Cost Effective

*When using Nicobond Terra Level System

Design ideas showing the versatility using Donard red panels with Gosford borders and corners.

Mesh mounted modular panels with predetermined grout lines reduce installation times and fitting costs.

Manufactured from full body porcelain tiles that are highly durable, scratch and stain resistant for indoor and outdoor applications and do not require sealing.

Geometric designs are highly slip resistant and suitable for all commercial and high footfall areas.

LIFETIME
GUARANTEE

Who else offers you a lifetime guarantee on your new wall & floor tile purchases? Simply fix your tiles using Nicobond, our trusted, British manufactured tiling brand to enable your lifetime guarantee.

**Proof of purchase required. Any claims will be subject to investigation. Conditions apply. See instore for more details.

Buy with Confidence

Who else offers you up to a lifetime warranty on your new tile and bathroom purchases? Our products are made with the best quality materials and manufacturing, so we are happy to offer the best warranties around to give you confidence and peace of mind. Why choose any less than the best quality products?
Patterns make perfect

The layout of your chosen tile can drastically change the overall appearance of your room. Here are some common installation types:
Brick Layout

Stacked Layout

Basket Weave Layout

Vertical Brick Layout

Stacked Vertical Layout

Herringbone Layout

Colour Shade Variation Grading

The variation of colour, texture, and tone between individual ceramic tiles is referred to as 'colour shade variation'. Variation in colour and shade is an inherent characteristic of any fired product and can actually enhance the character and beauty of the project. Shade variation is inherent in all tile products, including man-made tiles. Shade texture will vary from piece to piece within production runs are therefore given a variation (V) rating.

V1 Uniform

V2 Slight

V3 Moderate

V4 Substantial

Uniform Appearance:
Minimal to no difference among pieces from the same production run.

Slight Variation:
Distinguishable differences in texture and/or pattern within similar colours.

Moderate Variation:
The amount of colours on each piece may vary significantly.

Substantial Variation:
Random colour variation from tile to tile.

The colours shown within this brochure are as the limitations of the printing process will allow. Please refer to actual product samples before purchasing.
